2022 Changes

Our community-based strategic planning work in 2021 included a Grants Process Vision Team which recommended several process improvements. The team was composed of community stakeholders from across Texas with experience and knowledge of grantmaking trends and best practices.

2022 Changes

- A lower barrier and less time-intensive application; the goal is an application requiring only 30 minutes or less to complete.
- Less restrictive funding; awards are available for general operations rather than requesting project plans. This gives community-based organizations the flexibility to use funds for their greatest need.
- Time consuming grantee reports are being replaced with check-ins and or brief survey requests by TPIF's program staff.

2022 Changes

- More clearly defined grant application rating process composed of the grant application narrative response score and two indexes; one for communities in historically under-resourced geographic regions of our state and the other representing organizations serving populations that experience compounding social and structural barriers.
- A highly configurable, cloud-based grants management software platform was purchased and deployed, providing greater efficiencies over the previous highly manual system.

What does TPIF Fund?

Our grantmaking to non-profit organizations and organizations with fiscal sponsorship is intentionally broad for initiatives providing direct support to LGBTQ+ persons and communities in Texas.

The 2022 TPIF Community Grant Program awards funds for general operating support; applications are not required to identify projects or submit project plans.

\$170,000
Up to \$10,000 per organization

What does TPIF Fund?

In addition, an external focus by organizations that TPIF encourages is the enhancement of civic life by:

- increasing the ability and desire of LGBTQ+ people to vote
- increasing the LGBTQ+ communities' knowledge of issues that impact it
- increasing the number of and support for LGBTQ+ people in civic and governmental leadership in local communities and statewide
- encouraging LGBTQ+ communities' advocacy to end discrimination and create affirming policies
- actively securing the support of non-LGBTQ+ people in advancing cultural acceptance and ending discrimination against LGBTQ+ people
